(Other world TV standards e.g NTSC available on request)

‘Crane Safety Checks & Inspection’ (Video & DVD latest revision 2004) – This training program provides essential information on Crane Safety, Maintenance, Checks and Inspection on all types of Crane onshore and offshore. This video sequences show and explains in detail what everyone connected with crane operations needs to know, from crane

operators to management, to ensure crane operations are carried out safely. Contents include :

Boom Inspection - Hydraulic Systems - Wire Ropes - Sheaves & Pulleys - Safety Devices - Limit Switches - Safe Load Indicators - Capacity Charts - Slew Rings - Proof Load Testing.

VHS PAL Videocassette – GBP£195.00

VHS PAL “With Questions” VHS Video Training Package – GBP£225.00

DVD “With Questions” Video Training Package – GBP£235.00

(Other world TV standards e.g NTSC available on request)

“Working Offshore” (Generic Safety Induction) (Video & DVD latest revision 2004) - produced to show everyone connected with the Offshore Industry what the Offshore environment is really like, and is suitable for onshore office staff etc., and for persons contemplating visiting or working offshore. The program shows and explains in detail the pre-requisites for working offshore. Contents include

Medical Examinations - Offshore Survival and Fire Training - Heliport Procedures, and what to expect on arrival on a typical offshore installation in the form of a generic offshore induction and familiarisation briefing.

This program can be personalised to your own Company’s procedures and installations.

VHS PAL Videocassette – GBP£195.00

DVD PAL – GBP£205.00

(Other world TV standards e.g NTSC available on request)

‘Roustabout & Roughneck’ – This video / DVD shows and explains what to expect when working on a drilling rig as a Roughneck and Roustabout. The video was shot as it happens with no setting up of scenes or actors playing at being offshore workers, just experienced guys doing their job - coveralls covered in drilling mud, warts and all.

Our cameras accompanied Roustabouts & Roughnecks carrying out their work during normal drilling operations – working on deck - preparing and loading tubular - unloading supply vessels - sack room duties - mud pit operations – shaker room duties, and during drilling on the drill floor

Drilling Companies go to great trouble and expense interviewing and recruiting new Roustabouts, only to find that when they join a Rig, the new start does only one tour and leaves the job. Common reasons given are “I didn’t know it was going to be like this” or “Nobody told me it was such a tough job”. This video has been produced to show new personnel what the job is really like, and if anyone is put off when they watch it and decide

not to go offshore, then you have saved a lot of time, trouble and money - far more than the cost of this video or DVD.

This program can be personalised to your own Company's procedures and installations.

VHS PAL Videocassette – GBP£195.00

DVD PAL – GBP£205.00

(Other world TV standards e.g NTSC available on request)

“With Questions” video packages – Each video package is supplied in a hard binder containing a VHS PAL videocassette, ‘tick box’ answer sheets, Trainer’s master answers, and a Course booklet. “With Questions” DVD’s are supplied in DVD library cases.

This format is Ideal for use with a group of trainees to obtain feedback of understanding of the subject. Questions appear on-screen, and Trainees are prompted to select their answer from the multiple answer choices and tick their answer on the answer sheets provided. Trainee’s answers are checked against the ‘Master’ answer sheet provided
